TWO-YEAR DIP CHAIN RIP SAW WARRANTY

Mereen-Johnson LLC warrants to the original purchaser that our products are free from defects of workmanship or material. Mereen-Johnson also warrants that our products will do the work for which they were designed in the manner and with the efficiency and productivity stated in the builder's catalogs, circulars, specifications or quotations, if the machine is properly used and maintained.

Mereen-Johnson will replace or repair, at our option, any part manufactured by Mereen-Johnson that is found to be defective upon Mereen-Johnson's examination. This warranty is valid on our Dip Chain Rip Saws for twenty-four (24) months from the date of shipment from Mereen-Johnson only if the products are still in the possession of the original purchaser. This warranty is valid only if the equipment is paid for in full or according to the terms of the contract. This warranty is rendered invalid if any saw spacers other than those manufactured by Mereen-Johnson are used on the machine. This shall be the only obligation of Mereen-Johnson and there is no other warranty, expressed or implied.

Defects in electrical components, bearings, or other purchased equipment will be adjusted by Mereen-Johnson in accordance with the standard guarantee of the part's manufacturer.

Out of pocket costs will be charged if a Mereen-Johnson serviceman is requested to replace defective purchased parts.

It has always been Mereen-Johnson LLC policy to continuously improve its products. Mereen-Johnson LLC therefore reserves the right to make changes in design and specification and to make additions or improvements without incurring obligation to install them on products previous manufactured.

If during the warranty period the Mereen-Johnson Service Technician determines that need for the installation of replacement parts is due to misuse or neglect on the part of the purchaser, the out-of-pocket expenses incurred and the price of the replacement parts will be billed by Mereen-Johnson's Customer Service Department.

Some machines are equipped with computer modems to aid in troubleshooting. During the warranty period Mereen-Johnson will provide free remote diagnostic support. This support will also be available, for a fee, after the warranty period. Call the Customer Service Department, 612-529-7791, for a list of charges.
